PROFESSIONAL SUMMARY

I am a creative REACT/MERN developer with a passion for building responsive and user-friendly websites. With 4+ years of experience in the industry, I have honed my abilities to create efficient, dynamic, and visually appealing web solutions. My expertise spans across a wide range of web technologies, and I thrive on staying updated with the latest trends and best practices.

EDUCATION

2005 - 2015 | Hansraj Morarji Public School Mumbai STD X: 74%

School primary and secondary

2015 - 2021 | NMIMS MPSTME Mumbai GPA: 3.2/4 | CPGA: 2.8/4

Bachelor of technology - mechanical **diploma+degree (6 years program)**

PROFESSIONAL EXPERIENCE

MERNSTACK Developer

company: Utah tech labs **2025 - NOW**

- Promoted to senior react/mern Developer, leading the development of an Client project Management Panel from concept to deployment, covering both frontend and backend aspects.
- Designed and implemented a responsive, intuitive UI using React Hooks, Material-UI (MUI), and Bootstrap, ensuring smooth navigation and an optimized user experience.
- Integrated REST APIs for real-time inventory updates, search, filtering, and reporting functionalities.
- Developed backend services with Next.js and Prisma ORM, connecting to a PostgreSQL database to handle stock tracking, order processing, and audit logging.
- Implemented role-based authentication and authorization for secure access to inventory operations.
- Delivered a scalable, maintainable solution that streamlined warehouse operations and improved data accuracy.

React Developer

company: Skillup IT **2022 - 2025**

- Promoted to Associate React Developer, contributing to multiple projects including a College Management System and an E-commerce Platform using React Hooks, Material-UI (MUI), Bootstrap, and REST APIs.
- Developed responsive, dynamic UIs ensuring smooth and intuitive user experiences across devices.
- For the College Management System, implemented modules for student enrollment, faculty management, timetable scheduling, and examination tracking, integrating data from MongoDB and MySQL databases.
- For the E-commerce Platform, built features such as product listing, advanced filtering/search, shopping cart, and order management, ensuring seamless integration with payment gateways and inventory systems.
- Focused on backend development with Node.js, designing RESTful APIs and handling complex server-side logic for both projects.
- Contributed to end-to-end development, leveraging full-stack skills to deliver scalable, secure, and high-performance solutions.

RELEVANT PROJECTS

Ecommerce Website:

Tech : frontend,backend,database

Techstack : react, tailwind, nodejs, JWT,bcrypt express, mongodb, cloudinary,Zustand

- Frontend development using react for creating interatctive and responsive user interfaces.
- Backend implementation built using nodejs and express to handle api itergration and database.
- Database management utilized Mongodb to store and mange product and user data.
- User authentication using JWT and password encryption using bcrypt.
- performance optimization using lazy loading, debounce, useMemo,useEffect

Frontend Websites:

Tech : frontend

Techstack : HTML5,CSS3,bootstrap,javascript

- Frontend development using html5,css3(bootstrap) and javascript for creating interatctive,intuitive and responsive user interfaces.

EXTRAS

LLM/AI

Tech : ChatGPT/micorsoft copilot,Codegpt,cursor,claude,deepseek

Techstack : frontend,backend,database

- Use of LLM /AI to quicky create code snippets, functions, or entire programs, complete, refactor, and optimize code efficently with high accuracy and prompts reducing errors and time.Langchain, tanstackAI

CORE COMPETENCIES

- Team player
- Creative and fast learner
- Code structure & architecture
- Web performance optimization
